helps us look and feel clean, sweet, fresh.

Sparkling and vivacious—merry, pright, alort—a good, clear skin and natural, rosy, healthy completion are assured only by pure blood. If only every man and woman could be aduced to adopt the morning inside

only every man and woman could be induced to adopt the morning inside both, what a gratifying change would take place. Instead of the thousands of sickly, anaemic-looking men, women and girls, with pasty or muddy complexions; instead of the multitudes of "nerve wrecks," "rundowns," "brain fags" and pessimists wo should see a virile, optimistic throng of resy-checked people everywhere.

As inside bath is had by drinking each morning, before breakfast, a glass of real hot water with a teaspoonful of limestone phosphate in it to wash from the stomach, liver, kidneys and ten yards of bowels the previous day's indigestible waste, sour fermentations and poisons, thus cleaning, sweetening and freshening the entire alimentary canal before putting more food into the stomach.

Those subject to sick headache, biliousness, nasty breath, rheumatism, colds; and particularly those who have a pallid, sallow complexion and who are constipated very often, are urged to obtain a quarter pound of limestone phosphate at the drug store, which will cost but a trifle, but is sufficient to demonstrate the quick and remarkable change in both health and appearance awaiting those who practise internal sanitation. We must remember that inside cleanliness is more important than outside, because the skin does not absorb the impurities to contaminate the blood while the pores in the thirty feet of bowels do.—Advt.

CARDINAL OF BELGIUM IN NEW APPEAL FOR AID

Addresses Letter to the Chairman of American Relief Committee.

LONDON, Dec. 23.-Cardinal Merier, Primate of Belgium, has addressed a letter to Herbert C. Hoover, Chairman for the American Committee for Relief in Belgium, in which he says:

"I understand you have so kindly addressed anew an appeal to the generosity of your countrymen to provide lothing for our so painfully destitute people. I profess I had much preerred to shake hands with my American brothers in token of thankfulness for what they already have done than that we should again stretch to them the open hand to beg.

"But you yourseif, dear friend, invoke us to appease our scruples, and, therefore, I, knowing better than any one the destitution of our Beigian people, should feel myself traitor to

people, should feel myself traitor to my duty as their pastor if, through an exaggerated feeling of national pride, I should refrain from also pleading for those who are suffering.

"May I add that one of the greatest benefits, for which we shall feel eternally indebted to the American people, will be the fixing on America of the admiring attention of the Belgians. The Belgian people have learned to know you well, to look at you in a beautiful light, to feel to some extent what they would gain in following your footsteps."

Asquith Will Be Asked About Complaint of the Greek Premier.

STIRS ENGLAND

LONDON, Dec. 23 .- A new weapon was placed in the hands of Sir Edward Carson and other assailants of the government to-day, and it was forts gave rise to the reports that a considered certain it would be used

Premier Asquith is expected to be questioned pointedly in Parliament regarding assertions made by the Greek Premier Skouloudis that the "bullying tactics" of the Anglo-French diplomats cost the Allies the support of the Greek armies in the Balkans. It is probable he will be asked if it is true that Greece advised against the disastrous Dardanelles campaign before it was begun and suggested a more effective mode of operations against Turkey

An interview with the Greek Premier, printed in the Chronicle to-d: /. was a sensation in official circles. The Premier not only charged that the Allies' diplomatic blunders had forced Greece to remain neutral, but he declared that one of the Entente ministers had insulted King Constantine and accused him of lying.

"The other day one of the Entente ministers came here and insolently told me the government had broken promises made by our king," said Premier Skouloudis. "It was untrue and I felt his language was an insult, told him so and flung my written protest back. Further, my indignation went to the length of communieating officially with Sir Edward Grey and the French Premier and telling them in plain, undiplomatic language my opinion of the protest."
